

**A WORLD-CLASS
EDUCATION
FOR YOUR CHILD**

With over 60 years of experience, the Kumon Maths and English Study Programmes enable children of any age and ability to develop key foundations for learning. Our unique study method focuses on enabling children to develop into confident, independent learners with strong study skills. Kumon study is not based on school curriculum or age, allowing children the flexibility to revisit and build skills where they need to, with the aim of progressing beyond school level and surpassing their own expectations.

Rather than offering conventional maths and English tuition, our Instructors guide their students through work that is set at just the right level for them, keeping them engaged and making progress. Kumon study helps children of any age and any ability to shine.

At the Kumon Dún Laoghaire Study Centre, your child will be individually assessed to enable the Instructor to set work at just the right level for them. Through daily worksheet study at home they'll develop ability and fluency and your child will visit the Dún Laoghaire study centre for study sessions every week, where the Instructor will observe their learning growth and set new work for them, accordingly. The centre also offers online classes. Kumon's aim is to develop each child into a confident, independent and enthusiastic learner.

To unlock your child's potential, contact your Instructor, Sakthi Selvarangam for a free assessment on 087 605 9745.
